Dear Friends,

Along with the many ups and downs in the world right now, we are finding solace in our preparations for gathering at **The Heart of Change at the end of August**. As the programme comes together, we can collectively start to look forward to being in the beautiful Pontresina mountains in the company of other courageous and tender hearts. We are lining up workshops, performances, cinema and immersive experiences that draw us into the heart of change. The times we live in bring daily challenges and we find it important to get together to explore, live and celebrate radically shared aliveness in community.
